Special Issue

Festschrift dedicated to Professor John H. Weisburger on the occasion of his 80th birthday

Guest Editor: H. Marquardt, G.M. Williams

Introduction
H. Marquardt, G.M. Williams (Germany, USA) 1
Mechanisms of chemical carcinogenesis and application to human cancer risk assessment
G.M. Williams (USA). 3–10
Classification of carcinogenic chemicals in the work area by the German MAK Commission: current examples for the new categories
H. Greim, U. Reuter (Germany) 11–23
Cell transformation in vitro by food-derived heterocyclic amines Trp-P-1, Trp-P-2 and N^2-OH-PhIP
W. Pfau, H. Marquardt (Germany). 25–30
New DNA adducts of crotonaldehyde and acetaldehyde
S.S. Hecht, E.J. McIntee, M. Wang (USA) 31–36
From carcinogenesis to clinical interventions for cancer prevention
P. Greenwald (USA) 37–45
Smoking cessation in cancer prevention
H. Vainio, E. Weiderpass, P. Kleihues (France). 47–52
Suppressive effect of irsogladine maleate on *N*-methyl-*N*-nitro-*N*-nitrosoguanidine (MNNG)-initiated and glyoxal-promoted gastric carcinogenesis in rats
S. Sugie, K. Okamoto, T. Watanabe, T. Tanaka, H. Mori (Japan) 53–61
Comparison of the antioxidant content of fruits, vegetables and teas measured as vitamin C equivalents
R. du Toit, Y. Volsteedt, Z. Apostolides (South Africa). 63–69
Toxicological profile of pollutants in surface water from an area in Taihu Lake, Yangtze Delta
J.H. Shen, B. Gutendorf, H.H. Vahl, L. Shen, J. Westendorf (China, Germany). 71–78
Comparison of an array of in vitro assays for the assessment of the estrogenic potential of natural and synthetic estrogens, phytoestrogens and xenoestrogens
B. Gutendorf, J. Westendorf (Germany) 79–89
Development of an allergy test model: activation of human mast cells with potentially allergenic substances
A. Gospos, U. Dreikhausen, D.C. Dartsch, M. Szamel, S. Hockertz (Germany). 91–96
Towards in-vitro prediction of an in-vivo cytostatic response of human tumor cells with a fast chemosensitivity assay
R. Metzger, C.J. Deglmann, S. Hoerrlein, S. Zapf, J. Hilfrich (Germany) 97–108

Contents of Volume 16 No. 3

Articles
Effects of vitamin E on cytotoxicity of amiodarone and *N*-desethylamiodarone in isolated hamster lung cells
M.W. Bolt, W.J. Racz, J.F. Brien, T.E. Massey (Canada). 109–118

Quantitative changes in glycosaminoglycans in the lungs of rats exposed to diesel exhaust
H. Sato, J.-i. Onose, H. Toyoda, T. Toida, T. Imanari, M. Sagai, N. Nishimura, Y. Aoki (Japan) 119–128
Antioxidant defense disruption by polycyclic aromatic hydrocarbons-coated onto Fe_2O_3 particles in human lung cells (A549)
G. Garçon, F. Zerimech, M.-H. Hannothiaux, P. Gosset, A. Martin, T. Marez, P. Shirali (France) 129–137
Biotransformation of organophosphorus compounds
M. Jokanović (Yugoslavia) 139–160
Partial chemical/structural elucidation of anti-mutagenic compounds from corn
A. Burgos-Hernández, R. López-García, H. Njapau, D.L. Park (USA) 161–170
